INFORMATION

KWITT CARD

About Kwitt Card

Kwitt card is essentially a disposable version of your static debit or credit card that, when used for online purchases, can reduce the likelihood of credit card fraud. Virtual credit cards provide online retailers with dynamic information so that every time you pay using a virtual credit card, the verification data is different.

What is KwittUp?

Welcome to Kwitt-Up platform, based on Kwitt.

Now you are not only able to interact with your friends, but every vending machine, shop or local vendor can be your friend. Buy a coke from the nearest vending machine, pay for your parking or even purchase a suitable small insurance for you while going skiing.

In Kwitt-Up you have the possibility to enable Age-Verification and Bank-Trust Skills, which would allow you to prove your age or financial ability when purchasing such goods as a club ticket or renting a car.

You can chat with the machines just like you do with your friends on WhatsApp and you can see anytime which service is closest to you and connect to them just using your mobile phone.

Banking transactions digitalized, made now easy and suitable for you. Be one of the first to try the future of payments in Germany.
